PROFILE SUMMARY

Master's student in Informatics (Software Engineering) at NTNU with a B.Sc. in IT and Information Systems from the University of Agder. Led a multidisciplinary bachelor project with Knowit and Telenor Maritime, building an AI-supported maritime observability prototype. Solid foundation in software development, backend systems, AI and data, with experience in modern frontend development using React and TypeScript.

EDUCATION

NTNU – M.Sc. in Informatics, Software Engineering 2026–2028

Focus on software engineering, data science, information systems and AI-related technologies.

University of Agder – Bachelor's Degree in IT and Information Systems 2023–2026

Coursework in programming, databases, algorithms and data structures, information security, UX/UI design and system development.

PROJECT EXPERIENCE

Bachelor Project – Knowit & Telenor Maritime | Project Leader 2026

- Led a multidisciplinary team building an AI-supported maritime observability solution for Telenor Maritime, in collaboration with Knowit.
- Built the backend and data pipeline with FastAPI, PostgreSQL/TimescaleDB and Docker, with Grafana dashboards for monitoring.
- Implemented local LLMs, RAG and an AI agent/chat feature on top of a knowledge base.
- Applied a hybrid Scrum/Kanban methodology, with regular contact with the product owner and other stakeholders on progress and requirements.

Personal Portfolio Website | jonasmp02.github.io/portfolio-site 2026

- Built with React/TypeScript (Vite, Tailwind CSS, React Router), with CI/CD to GitHub Pages via GitHub Actions.
- See more of my projects here, including a food ordering app for IK Start, a map-based web app with Kartverket and an accessibility redesign of FINN.no that raised the SUS score from 45 to 77.5.

WORK EXPERIENCE

Jernia – Warehouse Employee / Seasonal Worker Multiple summer periods

- Handled warehouse operations, order processing and goods reception in a fast-paced logistics environment.
- Built strong teamwork and efficiency skills through structured, repeatable seasonal work.

Norwegian Armed Forces – Compulsory Military Service

- Completed first-time military service with emphasis on discipline, responsibility, teamwork and performing under pressure.

SKILLS

Professional
Project Leadership • Team Collaboration • Agile (Scrum & Kanban) • Stakeholder Communication • Problem Solving • Critical Thinking

Backend & AI
Python • Java • SQL • FastAPI • REST APIs • PostgreSQL/TimescaleDB • Docker • Grafana • LLMs • RAG • AI Agents • AI-assisted Development (Claude, ChatGPT, Codex)

Frontend & Tools
React • TypeScript • Vite • Tailwind CSS • React Router • Figma • Git • GitHub Actions (CI/CD) • GitHub Pages
